

Celebrity pairs Instructions

- Print out twice on card, cut out the pictures and laminate if you can.
- Pairs can be blue tacked face down on an A3 or A4 piece of perspex for eye pointing or fist/finger pointing. Take care to arrange for the student's easiest access.
- The aim of the game is to identify the matching pairs by choosing two to turn over per turn.
- The person who correctly identifies a pair takes them from the board and the winner is the one who has most pairs at the end of the game.
