Precious Metal Design

The Veritas brand is a unique collection of cufflinks, silver gifts and leather accessories designed by Mark Platt.

Our designs are characterised by the innovative use of traditional and contemporary luxury materials, mixing sterling silver with translucent cat's eyes, natural antler horn, coloured stones and even gold naval thread to create some of the most original of contemporary accessories.

Veritas designs are used the world over by companies and institutions as unique and outstanding corporate gifts. Every gift is beautifully presented and ideally suited to decoration with an engraved or embossed corporate logo or message.

For those looking for something exceptional, which will make a unique statement about their company or organisation, Veritas offers a bespoke gift service. We work to each client's individual brief to create one-of-a-kind gifts, managing every part of the process from first colour visual, through pre-production sample and finally to finished product.

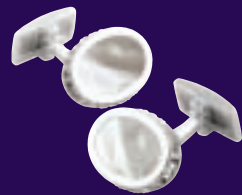

We hope you enjoy using this brochure and look forward to your comments and feedback.
