

Ambrosia Essence

Ambrosia Essence is an extremely potent combination eight highly effective herbal and flower extracts to soothe, tone, and renew the skin. Use actuator to pump a few drops of the oil onto your fingertips and massage into the affected area until it is completely absorbed. Use daily to revive and restore your complexion.

Organic Tamanu Nut Oil (*calophyllum inophyllum*)

Tamanu oil is pressed from the dark chocolate-brown kernels of the Tamanu tree that grows profusely along the coastline of the Pacific Islands. Tamanu oil possesses the unique capacity to promote cicatrisation thereby improving the appearance of wounds and healthy skin alike. It is used widely in the Pacific islands as a folk medicine, and is applied liberally to cuts, scrapes, burns, insect bites and stings, abrasions, acne and acne scars, psoriasis, diabetic sores, sunburn, dry or scaly skin, blisters, and eczema.

Organic Rosehip Seed Oil (*rosa rubiginosa*)

Rosehip seed oil is pressed from the seeds in the red berry-like fruits, or hips, of a wild rose-bush that grows in the lush mountain valleys of the southern Andes, in Chile. It is used to reduce the appearance of scars and facial lines, and prevents the signs of premature aging.

Organic Helichrysum Flower Oil (*Helichrysum italicum*)

Helichrysum oil is extracted from the fresh or dried flowering clusters by steam distillation. Helichrysum oil is used to improve the appearance of scars, acne, dermatitis, stretch marks, boils and abscesses.

Organic Neroli Flower Oil (*citrus aurantium ssp amara*)

It takes 1000 kgs of orange blossoms to make 1 kg of Neroli oil. Neroli oil is extracted from the small, white, waxy flowers of the bitter-orange tree by steam distillation. Neroli oil can help with the appearance of scar tissue and stretch marks and also prevents the signs of premature aging.

Organic Patchouli Leaf Oil (*pogostemon cablin*)

The pure essential oil of Patchouli leaves is used to improve the appearance of dry, mature or wrinkled skin. It is useful for inflamed skin conditions such as dermatitis, eczema and acne.

Calendula CO2 Flower Extract (*calendula officinalis*)

The total supercritical extraction of Calendula flowers, or marigold, is 200 times stronger than the maceration in vegetable oil. This unique method of extraction collects the most volatile and fragile fractions of the plant and obtains all the beneficial fats, resins and waxes contained in the whole flower. Calendula is an excellent anti-inflammatory, is very useful for eczema, dermatitis and irritated skin.

Carrot CO2 Seed Extract (*daucus carota*)

Carrot seed oil is made from supercritical extraction from carrot seeds that are sourced from New Zealand, ensuring an exceptionally pure extract. Low processing temperatures ensures a gentle extraction of the seed. Carrot seed oil is excellent for improving the appearance of wrinkled, sun damaged and mature skin. It improves the complexion by removing toxin build up in the skin and is also useful in cases of water retention. Using carrot seed oil will improve tone and elasticity to the skin, creating a firmer, fresher appearance. It is excellent for mature and congested skin, couperose skin and eczema.

Rosemary Leaf Extract (*rosmarinus officinalis*)

A potent natural antioxidant extracted from the fresh leaves of the herb. Its properties are antibacterial, soothing and wound healing. Rosemary is a powerful antioxidant, preventing damage by free radicals. Rosemary is renowned as a rejuvenating tonic and is said to prevent the signs of premature aging.
