

## Construction Site Health & Safety Inspection and Report

Site inspections are not just a policing exercise. They are a vital opportunity to enhance the health and safety knowledge of you and your team. Our advisors use an 'arm around the shoulder' approach, we are non judgmental and work hard to gain our clients trust. We provide a comprehensive and clear report with photos and action plan.

The Health & Safety Report provides a formal record of Health & Safety Inspection and audit of Construction Works. The report consists of three sections

1. Executive Summary
2. Site Inspection and itemised action plan
3. Audit form Checklists

### Features Include

- Written Report – Ensure and document your compliance with the law
